

FIT Advanced Intensive

Through a combination of didactic presentations, skill building exercises and feedback, participants will learn:

- Empirical foundations of Feedback Informed Treatment (FIT)
- Evidence-based skills for improving client engagement and decreasing dropout rates in treatment services
- How to integrate real time outcome and alliance feedback into clinical practice
- How to measure and improve clinical effectiveness of individual clinicians, agencies, and larger systems of care
- How to develop and execute an evidence-based plan for improving the quality and outcome of treatment

The International Center for Clinical Excellence is pleased to announce the annual Feedback Informed Treatment "Advanced Intensive" training to be held in Chicago, Illinois (USA):

March 9th-11th, 2017

Space is limited

Register at: <https://www.eventbrite.ie/e/advanced-fit-intensive-training-2017-tickets-22665227305>

Fee \$1095.00

The advanced training is specifically designed for mental health professionals seeking practical, empirically-proven methods to enhance their therapeutic effectiveness including: social workers, family therapists, psychologists, psychiatrists, psychiatric and community health nurses, alcohol & drug counsellors, youth workers, sexual abuse counsellors, case managers, probation officers, crisis counsellors. The advanced training is also intended to prepare and support public and private agency managers and directors that are planning to or are already implementing Feedback-Informed Treatment (FIT).

The training will be run by ICCE Director, Scott D. Miller, Ph.D. along with special guest contributor, ICCE Senior Advisor, psychologist Susanne Bargmann

- The training venue is situated along the beautiful "Magnificent Mile," directly across from Northwestern Hospital, at the top of a beautiful tall building, steps from the best retail therapy, restaurants, and blues bars in Chicago.
- Be sure and sign up early as the A.I. is absolutely limited to 40 people.

Continental breakfast every morning of the training

Six FIT Treatment and Training Manuals for training and supervising practitioners in FIT.

Detailed, state of the art handouts covering the theory and practice of FIT

Access to the ICCE site for the FIT Training Associate exam and application process.

Certificate of attendance documenting 18 hours of continuing education
